EDUCATION

The University of Texas at Dallas – M.S., Computer Science

Core GPA: 3.5

Expected: May 2027

Dallas, TX

Relevant Courses: Machine Learning, Natural Language Processing, Database Design, Big Data Management & Analytics, Systems Security & Binary Code Analysis, Human Computer Interactions, Web Programming Languages

Civil Aviation University of China – B.S., Computer Science

Graduated: June 2025

Tianjin, CN

SKILLS

Languages: JavaScript, Bash, SQL, Python, Java, C/C++, Lua

Databases: MongoDB, Redis, MySQL

Frameworks: Node, Express, React, Puppeteer, LangChain,

Tools: Git, Neovim, Docker, Microsoft Office Suite,

PyTorch, TensorFlow, Gemini API, SocketIO, WebRTC

Google Suite, Cursor, Antigravity, GitHub Copilot

Soft Skills: Team Collaboration | Verbal & Written Communication | Analytical Problem Solving | Adaptability

HACKATHONS & PROJECTS

HackTX 2025 – Winner, Best Human Intelligence (Out of 728 participants / 225 teams)

October 18, 2025

Austin, TX

404 Apparel – Contributor

- Trained counter-surveillance noise in **PyTorch** to evade YOLOv8 detection, reducing model confidence by **93%**.
- Built a live-testing interface utilizing **OpenCV** and **WebRTC** to validate detection-disrupting capabilities.

HackUTA 7: Enter the Hacker-Verse – Winner, Best Use of Agentuity (Out of 429 participants / 135 teams)

October 4, 2025

Arlington, TX

Bugzooka – Contributor

- Engineered an autonomous **QA testing agent** using **Gemini** and prompt engineering, deployed with **Agentuity**.
- Built a backend using **FastAPI** and **MongoDB** via **Beanie ODM**, ensuring type-safe data schemas with **Pydantic**.

Privacy-Preserving Gateway for LLMs

July, 2026

Dallas, TX

- Engineered a privacy-filtering middleware using **Transformer-based NER** to mask PII within user input prompts.
- Optimized redaction accuracy via **Gemini API**, prioritizing high **Recall** to eliminate sensitive data leakage.

Neural Language Model

April, 2026

Dallas, TX

- Architected a language model from scratch in **PyTorch**, manually implementing embedding and softmax layers.
- Trained word embeddings on the **NLTK Brown corpus** using **SGD**, achieving high semantic accuracy on the **WordSim353** benchmark.

WORK EXPERIENCE

Shanghai Education Software Development Co., Ltd. – Software Development Intern

July 2024 – September 2024

Shanghai, CN

- Participated in front-end development of UI rework, utilizing **Vue** with **Vuetify** component framework.

Shanghai Supwisdom Information Technology Co., Ltd. – Software Development Intern

December 2023 – January 2024

Shanghai, CN

- Migrated frontend codebase from **Vue Options API** to **Composition API**, refactoring **2,000+** lines of code.
